

EXPERIMENT-6. PyTorch Tensor Operations

```
import torch
```

```
a = torch.tensor([1,2,3])
```

```
b = torch.tensor([4,5,6])
```

```
print("Addition:", a+b)
```

```
print("Subtraction:", a-b)
```

```
print("Multiplication:", a*b)
```

output

```
= RESTART: C:/Users/SUPRIYA V/AppData/Local/Programs/Python/Python314/ai exp-  
y  
Addition: tensor([5, 7, 9])  
Subtraction: tensor([-3, -3, -3])  
Multiplication: tensor([ 4, 10, 18])
```
